ROLTA-TUSC SOLUTION OFFERINGS

Oracle Applications Implementation and Support

Rolta-TUSC provides full lifecycle implementation services for all core Oracle E-Business Suite application modules, including Financial, Supply Chain Management, Manufacturing, Human Resource Management Systems, and Customer Relationship Management. Rolta-TUSC also provides post-implementation functional and technical support.

Enterprise Performance Management (Includes Oracle Hyperion)

Leveraging a combination of EPM solutions as well as proprietary financial templates, driver-based planning models, BI scorecards, and acceleration tools, Rolta-TUSC helps you articulate and seamlessly implement an end-to-end EPM strategy for your business. These solutions help you improve profitability, promote rapid and effective decision-making, and increase business alignment.

Managed Services – Remote DBA Support

Rolta-TUSC provides expert support for all Oracle Database, middle-tier, Unix OS, E-Business Suite, and SQL Server system needs. We maintain and enhance the reliability, stability, and redundancy of your IT systems through system monitoring, administration, and system customisations.

Oracle and Open Systems Development (includes Oracle Fusion Middleware)

We address integration problems through a variety of unique solutions, expert capabilities, and tools. Rolta-TUSC plays the role of a systems integrator, using Fusion middleware and other Oracle or Open System tools to create custom business applications to fit your specific technology and business needs.

Oracle DBA and Database Services

We provide on-site, expert DBA staffing to help you with your tactical Oracle database needs. When you need immediate help with an acute infrastructure problem, this service is an excellent alternative to hiring full-time personnel or overloading in-house staff.

Oracle Infrastructure Services

Rolta-TUSC can help you improve, maintain, and optimize your Oracle infrastructure. We can help you identify potential problems and determine and reach your infrastructure goals.

Oracle Business Intelligence and Data Warehouse Development

When decision makers have access to linked, integrated business information—at the moment they need it—they can respond to change quickly and make decisions that drive business performance and optimization. Rolta-TUSC helps organizations plan, prioritize, design, implement, and deploy Business Intelligence and Data Warehouse solutions.

Oracle Identity Management Services

We ensure you get the best solution for your unique situation. Implementation services include integrated security-access controls, single sign-on for all systems, provisioned identity and access controls, consolidated authority control and compliance reports of access controls.

Oracle Reselling

Our deep familiarity with Oracle technology allows us to effectively help you find the right Oracle solution. From consulting and competitive pricing through implementation and product maintenance, we provide support throughout the lifecycle of your Oracle product. We can also review and tailor your licensing arrangement to ensure cost effective compliance.

Oracle Training

We offer public and client-site classes to meet your individual needs. Rolta-TUSC training equips students with tools and knowledge to meet the challenges of today's complex IT environment.

ABOUT ROLTA

Rolta is a leading provider and developer of Information Technology based services in Geospatial Information Systems (GIS); Engineering and Design Services (EDS); and Enterprise Information and Communications Technology (EICT), which includes software development, advanced security, network management, and Oracle technology and services.

ABOUT TUSC

As an Oracle Certified Advantage Partner (one of only a handful in the US), TUSC provides expert functional and technical solutions in Oracle E-Business Suite Consulting, Oracle Hyperion, Business Intelligence / Data Warehousing, Project Management and Implementation Support, Custom Development (includes Fusion Middleware), Oracle DBA and Database Services, Managed Services for Remote DBA and E-Business Suite Support, Oracle Software Licensing, and Oracle Training & Mentoring.
